## **#20 Nickel Free White Bronze**

Nickel Free White Bronze and sterling alternative alloy with the following benefits:

- Light gray Rhodium color
- Casts at low temperature (980°C) with good metal flow. Best casting results in open system casting machine
- Good tarnish resistance
- Cast trees recyclable at 60/40 (old to new metal)
- Lower metal density yields 25% more pieces per ounce than sterling
- Ecologically friendly – no nickel/or other hazardous metals (i.e. lead, cadmium)
- Higher durability than sterling due to 25% increased metal hardness
